DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5-6, 10-11 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Recitation "a higher voltage side of an electric power line of the squib and the second channel being connected to a lower voltage side of the electric power line" as recited in claims 5 and 10 renders the claims indefinite for being unclear, since it appears that the claims recite only one electric power line while in fact each of the higher voltage side and lower voltage side have different electric power line. The examiner suggests applicant to amend the mentioned recitation to --a higher voltage electric power line of the squib and the second channel being connected to a lower voltage electric power line--.

Allowable Subject Matter

3. Claims 5, 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 6, 11, and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
